Academic and Student Support Services Offered

Dr. Brenda Kelly
Dean, General Studies

Student Success Initiatives Background Information

Performance Funding Measures

1. Retention Rates
2. Completion Rates
3. Job Placement/Continuing Education
4. Entry-Level Wages

Pirate PATH to Success

Packages some of the student success initiatives we have started into a plan focused on Guided Pathways and Intentional Advising for first-time-in-college students.

Pirate PATH to Success

P Preparing Students for Success
Through Orientation

A Advising Students for Success

T Tracking Degree Plans to Guide
Students to Success

H Helping Students through
Academic and Student Support
Services to Ensure Success

Pirate PATH to Success

P Preparing Students for Success Through Orientation

- Required Orientation
- Career Assessment as a Part of Orientation

Pirate PATH to Success

A Advising Students for Success

- An assigned advisor for each FTIC student
- A review of the career assessment with the assigned advisor
- Required advising through successful completion of at least 50% of the required hours for the program
- Defined points of contact during the semester for advisors to reach out to students

Pirate PATH to Success

T Tracking Degree Plans to Guide Students to Success

- Program Minimum Academic Pathways (MAPs)
- MAP2, MAP3, MAP4
- Degree plans specify math and English classes early and identify courses essential to student progression.

Pirate PATH to Success

- H Helping Students through Academic and Student Support Services to Ensure Success**
 - Referrals to academic and student support services
 - Student Resource Manual

Studies

Dr. Monique Collins, Assistant Dean of
Student Services

Career Readiness and the Student Journey

- Student's Story
- Table Discussion: How can PSC help this student?
- Debrief

Erika's Story

Erika is a high-performing student who is currently dual-enrolled. Though she comes from a low income family, she will graduate from high school in the spring and wants to begin her college career as a first-time-in-college student in the fall. Due to her dual enrollment, she will have successfully completed 27 college credits before she enrolls. She is unsure of what major or career she wants to pursue but will enroll in the Associate in Arts program and plans to transfer to the University of Florida.

Susan's Story

Susan is a single mother of two who struggles with mathematics. She is challenged by the final pre-requisites for the RN nursing program in which she is enrolled because they include a MAC1105 College Algebra. She is currently completing the phlebotomy program. Even though she struggles financially, and does not have reliable transportation, she is committed to completing her studies because she knows a career in nursing can help change the trajectory of her family story.

Juan's Story

Juan left the military 7 years ago and has worked a series of part-time jobs since his discharge. He entered the military after completing high school 15 year ago and never attended college. To complicate Juan's employment history since leaving the military, he has been diagnosed with PTSD. Juan is married with a child on the way and wants a career to better support his family. He enjoyed working with computers in the military and is interested in attending cybersecurity programs.

Justin's Story

Justin graduated from high school 20 years ago and completed the automotive program at Pensacola State College after high school. He is no longer working as mechanic and is currently homeless and unemployed. He has been diagnosed with a hearing impairment and is interested in the welding program at PSC.
